

2012 Stapleton Stingrays

Stapleton Stingrays offers youth a recreational program which provides a climate of friendly competition where swimmers ages 5-18 can develop a love for the sport, improve their swimming skills, and learn the principles of good sportsmanship. Participants will begin practice weekday mornings, Monday-Thursday, in May and will begin competing Friday mornings throughout the months of June and July. The season will end the last weekend in July with special events running through the first week of August.
